CHANGE OF COMMAND CEREMONY

DESRON 20

BY

VADM STANSFIELD TURNER

GOOD MORNING LADIES AND GENTLEMEN. IT'S A REAL PLEASURE TO BREAK AWAY FROM THE WAR COLLEGE FOR ONE MORNING TO GET BACK ABOARD SHIP. ALTHOUGH I DESPISE MEN WHO VIEW THE WORLD THROUGH PAROCHIAL BLINDERS, I HAVE SERVED ON DESTROYERS AND COMMANDED A DLG SO I FEEL A SENSE OF HOMECOMING AT BEING HERE.

FURTHERMORE, I HAVE KNOWN COMMODORE BRADLEY SINCE OUR HIGH SCHOOL DAYS BACK IN ILLINOIS, WHEN I DOUBT THAT EITHER OF US KNEW WHAT SALT WATER WAS. SO IT'S A REAL HONOR TO BE HERE AS HE PASSES ON THE REIGNS OF COMMAND TO CAPTAIN DALLA MURA AND TAKES HIS PROVEN EXPERTISE TO HIS NEW ASSIGNMENT IN THE MEDITERRANEAN. HIS RECORD AS COMDESRON 20 SPEAKS FOR ITSELF: IN GUNFIRE AND SAR MISSIONS IN THE GLUF OF TONKIN, WHERE HIS FLAG SHIP WAS TAKEN UNDER FIRE; THROUGH OPERATIONS IN THE MID EAST; IN THE SQUADRON'S CRUISE AROUND THE WORLD; IN HIS CREATIVE INITATIVES IN TACTICAL OPERATIONS; AND IN HIS CLOSE ATTENTION TO PERSONNEL AND MATERIAL READINESS IN PREPARING FOR YOUR UPCOMING DEPLOYMENT. FOR HIS OUTSTANDING LEADERSHIP IN

ALL SUCH DUTIES JIM BRADLEY HAS EARNED A SINCERE "WELL DONE"
FROM ALL OF US.

CAPTAIN DALLA MURA, YOU ARE TAKING COMMAND OF WHAT
APPEARS TO BE SOME OF THE NAVY'S FINEST DESTROYERS. I DO
ENVY YOU. I'D LIKE, WITH BOTH OF YOUR PERMISSIONS, TO
ADDRESS MY REMARKS PRIMARILY TO THE OFFICERS AND MEN OF
YOUR SQUADRON. IN SOME OTHER NAVIES THE NEW COMMANDER STEALS
ABOARD ON THE 4 TO 8 WATCH, A FAST RELIEF IS ACCOMPLISHED IN
PRIVATE, AND THE EX-SKIPPER IS GONE BEFORE SUNDOWN. THE
TRADITION OF OUR CHANGE-OF-COMMAND CEREMONY STEMS FROM A
DESIRE TO MAKE SURE ALL HANDS KNOW WHO IS IN CHARGE - FROM
THE MISSILE TECHS ON DEWEY TO THE SONARMEN ON GARCIA - FROM
THE MASTER AT ARMS ON DAVIS TO THE MESS COOKS ON HEWES - FROM
THE MEN IN TRIP CIC TO THOSE IN THE FAR ROOM OF BOWEN AND
AFTER-STEERING ON FURER - YOU ALL HAVE TO KNOW WHO THE BOSS IS
AND HOW YOU CAN WORK FOR HIM. THE REASON IS THIS: DESRON 20
NEEDS THE VERY BEST FROM EACH OF YOU AS INDIVIDUALS IF OUR

NAVY IS TO CONTINUE AS THE BEST IN THE WORLD. THE WORLD THAT WE NAVY MEN WILL FACE IN THE NEXT DECADE OR TWO WILL BE QUITE DIFFERENT FROM THAT OF THE PAST TWO. WE HAVE BEEN PREOCCUPIED WITH TWO WARS AGAINST NON-NAVAL POWERS: NORTH KOREA AND NORTH VIETNAM. IN THOSE DAYS WE HELD A CLEAR SUPERIORITY AT SEA, BOTH IN NUMBERS OF SHIPS AND AIRCRAFT AND IN THEIR QUALITY.

AS YOU ALL KNOW WE HAVE NO SUCH MONOPOLY NOW. WE MUST THINK MORE OF POTENTIAL COMBAT WITH AN EMERGING NAVAL POWER. I DO NOT AGREE WITH ANYONE WHO SAYS THAT WE HAVE FALLEN INTO SECOND PLACE, THAT WE HAVE BECOME AN AVIS AMONGST THE NAVIES OF THE WORLD. IN MY OPINION OUR SHIPS AND AIRCRAFT ARE BETTER SUITED FOR OUR NAVY'S MISSIONS THAN ANYONE ELSE'S IN THE WORLD. TOO MANY CRITICS MAKE SHALLOW AND SPECIOUS COMPARISONS, STACKING UP OUR OLD FRAM DESTROYERS AGAINST THE NEW SOVIET MISSILE FRIGATES. MOREOVER, OUR STRENGTH LIES IN COMBINING THE WEAPONS AND SENSORS

OF A NUMBER OF SHIPS, AS ARE IN THIS SQUADRON, TO WORK TOGETHER. THEY MUST COMPLEMENT EACH OTHER: THE LONG RANGE MISSILES OF DEWEY HERE WITH A LONG RANGE SONAR AND BASIC POINT DEFENSE OF TRIP; AND HEWES WITH THE GUNFIRE POWER AND VERSATILITY OF DAVIS. THE CHALLENGE BEFORE YOU AND ME TODAY IS TO FIND NEW WAYS TO USE ALL OF OUR SHIPS, BOTH INDIVIDUALLY AND IN GROUPS, IF WE ARE TO BE CONFIDENT OF REMAINING THE HERTZ OF THE WORLD'S NAVAL POWERS.

DON'T ANY ONE OF YOU BE SHY IN PUTTING FORWARD YOUR IDEAS. YOU MEN ARE PROFESSIONALS, VOLUNTEERS WHO KNOW YOUR EQUIPMENT AND WHAT IT CAN DO. IF YOU THINK OF A BETTER WAY THAT IT CAN BE USED, OR OF A MORE EFFICIENT WAY FOR MAKING IT OPERATE IN CONJUNCTION WITH THE OTHER SHIPS OF YOUR SQUADRON, DON'T BE AFRAID TO BE HEARD.

THE STRENGTH OF THIS SQUADRON MUST BE MUCH GREATER THAN JUST THAT OF EACH SHIP ADDED TO THE OTHERS. WE CAN AND WE MUST DO BETTER THAN THAT. THE TWO BIT PENTAGON WORD FOR THIS

IS SYNERGISM, WHETHER TAKING ON SUPER SONIC AIRCRAFT AND MISSILES, COMBATING THOSE BRISTLING HIGH SPEED DESTROYERS AND PATROL BOATS, OR FINDING AND SINKING A SILENT NUCLEAR SUBMARINE, THE MISSION MUST BE APPROACHED AS A SQUADRON AND NOT ONE-ON-ONE. YOU MUST ALWAYS THINK OF THE OTHER GUY - WHAT HE CAN DO FOR YOU AND WHAT YOU CAN DO FOR HIM. IN MY OPINION, THIS IS THE ONLY WAY OUR NAVY AND ITS DESTROYERS CAN SURVIVE. THE SAME CONCEPT EXTENDS TO INCLUDE OUR SUBMARINES, OUR AIRCRAFT AND THEIR CARRIERS, BUT IT SHOULD START HERE IN THE SQUADRON.

PLEASE DO NOT SHRUG OFF MY INVITATION TO CONTRIBUTE IDEAS BECAUSE YOU FEEL THAT IS SOMETHING FOR THE COMMODORE OR THE CAPTAIN OR YOUR OFFICERS OR FOR SOMEONE ELSE TO DO. THE GREATEST SINGLE STRENGTH OF OUR NAVY TODAY, THE ONE THAT GIVES ME CONFIDENCE THAT WE ARE NUMBER ONE, IS THE EXPERIENCE THE YANKEE INGENUITY AND THE COURAGE OF THE MEN IN SQUADRONS LIKE THIS, FROM BOOT TO COMMODORE. WE HAVE AN EDGE ON ANY

NAVY IN THE WORLD IN THE QUALITY AND EXPERIENCE LEVEL OF THE MEN WHO MAN OUR SHIPS. WHETHER YOU ARE A JACK OF THE DUST GIG COXSWAIN, OR MISSILE TECHNICIAN YOUR IMAGINATION IN HOW TO DO THINGS BETTER AND YOUR PROFESSIONAL COMPETENCE IN ALL YOUR DUTIES ARE OUR GREATEST STRENGTHS. THEY CAN BE THE CRITICAL MARGIN OF DIFFERENCE TODAY. SO EACH OF YOU MUST CONSTANTLY ASK YOURSELF: AM I MORE PROFESSIONAL THAN MY COUNTERPART IN ANYBODY ELSE'S NAVY? AM I AS INFORMED ON MY DUTIES, ESPECIALLY ON MY BATTLE STATION DUTIES, AS I CAN POSSIBLY BE? AND AM I CONSTANTLY LOOKING FOR EVERY WAY TO DO THINGS BETTER AS AN INDIVIDUAL, AS A MEMBER OF MY SHIP, AND AS A PART OF DESRON 20? IF YOUR ANSWERS ARE ALL YES WE WILL STAY ON TOP, NO MATTER HOW HARD THE AVIS BOYS TRY. CAPTAIN DALLA MURA, THIS IS MY CHALLENGE TO YOU AND ALL YOUR MEN, TO GO BEYOND THE DETAILS OF DAY-TO-DAY DEMANDS AND BEYOND THE INDIVIDUAL SHIP TO KEEP OUR DESTROYER TEAM THE MOST COMBAT READY TEAM IN ANY MAN'S NAVY. I CANNOT REALLY WELCOME YOU

AND YOUR WIFE EMILY SINCE YOU ARE COMING FROM NEWPORT DUTY TO NEWPORT DUTY, BUT I AM SURE THAT YOU BOTH WILL FIND THIS A MOST CHALLENGING AND EXCITING TOUR.

COMMODORE BRADLEY, YOU AND NANCY WILL LONG BE REMEMBERED IN THIS SQUADRON FOR EVERYTHING YOU HAVE ACCOMPLISHED HERE. I WISH YOU BOTH ALL MY VERY BEST AS YOU LOOK FOR SUBMARINES IN THE MEDITERRANEAN. IF YOUR SUCCESSES THERE ARE AS GREAT AS THOSE IN DESRON 20, I PITY THE SUBMARINES.

MY VERY WARMEST REGARDS TO THE FOUR OF YOU AND MY SINCERE THANKS FOR THIS OPPORTUNITY TO BE HERE.

DRAFT 8-16

One of my predecessors at the Naval War College, Admiral W.S. Sims, once wrote:

"There must be developed in the men that handle destroyers, that mixture of skill and daring which can only be attained if the boats are habitually used under circumstances that imply the risk of accident."

The vessels that compose Destroyer Squadron 20 represent the only class of ship which is indispensable to every fleet operation -- the advance guard for the strong, the protection of the weak, the lance to thrust, and the shield to parry. Destroyers are not now and never have been the queens of the Fleet; aircraft carriers and submarines claim that glory. Instead destroyers have been described as "the workhorse of the fleet." Those of us who have served aboard them know that their lineage of achievement continues to prove them thoroughbreds. Furthermore, a special breed of jockey rides the ships.

Allow me to share with you my thoughts on the distinctive qualities which match the destroyerman to his ship.

The first trait was mentioned by Admiral Sims -- willingness to risk. Be bold. Destroyers are not fought by timid men. Lord Nelson, in urging vigorous action said, "I am of the opinion the boldest are the safest." Upon approaching an enemy convoy he declared, "You may depend they shall either be taken or destroyed at the risk of my squadron... which is built to be risked."

The primary mission of DESRON 20 is defense of the Fleet .. you too were built to be risked. The success of that risk depends on boldness .. not the courage of the Commodore but of every hand on every ship. First reason, the risk.

As I mentioned, no ship enjoys as many missions as the destroyer -- thus our second trait -- Flexibility. Learn every facet of your job -- only then will you be able to adapt and contribute when your mission changes. A destroyerman, like his ship, must be a jack of all trades and a master of a few.

Submarines hunt alone, aircraft carriers carry out their mission independently of accompanying ships -- but destroyers are a team. Six

destroyers working as a team are worth a dozen "doing their own thing."

Before ships work together each crew must be synchronized. Each man must appreciate his place. In the Navy we depend on each other, gaining strength and courage from the team. All too frequently we think of cooperation only in terms of mutual support in combat. Team work should be far more pervasive -- Supply officers should enjoy thorough rapport. Chief Engineers should swap experts and cooks trade recipes. Obviously only combat can completely discover the tensile strength of the crew. The men of DESRON 20 must understand their individual part and the team's collective purpose in a scrap, and prepare for it above all else. Unfortunately, only the dead have seen the end of war. ~~Therefore~~ Team work is our third characteristic.

The final virtue of a destroyerman comes as a composite of all the others. It is the outward evidence of the individual's self-respect, trust in his seniors and confidence in his juniors. Esprit de Corps. Take pride in the men in your division, your ship, your squadron and your Navy. Our Navy is second to none, for one reason, our sailors are second to none. I include each of you. Challenge yourself to become the best in your field - set the standards for your peers. Regardless of what position you hold in or out of the Navy, true satisfaction can only be obtained in knowing that you did your best.

Vice Admiral Turner made the following remarks to the sailors of Destroyer Squadron Twenty at the Change of Command of COMMANDER DESTROYER SQUADRON TWENTY on 17 August when Captain Richard A. Dalla Mura releived Captain Claiborne S. Bradley.

Admiral Turner, who is a destroyerman in his own right, has commanded the USS HORNE (DLG-30) and the USS ROWAN (DD-782) and Cruiser Destroyer Flotilla Eight.

"I dislike naval officers who view the world through parochial blinders, seeing only destroyers, or submarines, or aircraft, or whatever. But I must admit that it is mighty good to be back on the deck of a destroyer and in the company of destroyermen.

I would like to address my brief remarks this morning primarily to the officers and men of the squadron. The tradition of our change-of-command ceremony stems from a desire to make sure that all hands know who is in charge - from the missile technicians on DEWEY to the Sonarmen on GARCIA - from the Master-at-Arms on DAVIS to the mess cooks on HEWES - from the men in TRIPPE's CIC to those in the fire-room of BOWEN and after steering on FURER. You all have to know who the boss is and how you can work for him. This is most important because DESRON 20 needs the very best from each of you as individuals if our Navy is to continue to be the best in the world.

Until a few years ago, our Navy held a clear superiority at sea, both in numbers of ships and aircraft and in their quality. As you all know we now have no such monopoly. But I do not agree with anyone who says we have fallen into second place, that we have become the Avis amongst the navies of the world. In my opinion our ships and aircraft are better suited for our Navy's missions than any others in the world for theirs. Too many critics make shallow and specious comparisons, stacking up our oldest destroyers, for instance, against the newest Soviet missile frigates. Moreover, our strength lies in combining the weapons and sensors of a number of ships such as those in this squadron. Your ships must complement each other and work as a team; the long range missiles of DEWEY with

the long range sonar and Basic Point Defense of BOWEN, TRIPPE and HEWES, the short range missiles of GARCIA and FURER with the gun firepower and versatility of DAVIS. The challenge before you today is to find new ways to use your ships, both individually and as a squadron. If we are to be confident of remaining the Hertz of the world's naval powers, you must each come up with new ideas.

Don't any one of you be shy in putting forward your suggestions. You men are professionals, volunteers who know your equipment and what it can do. If you think of a better way that it can be used, or of a more efficient way for making it operate, especially in conjunction with the other ships of your squadron, don't be afraid to be heard.

You must always think of those other ships of the squadron, what they can do for you and what you can do for them. In my opinion, this is the only way our Navy and its destroyers can do their job. This same concept extends to our submarines, our aircraft and their carriers, but for you it must start here in the squadron.

Please do not shrug off my invitation to contribute your ideas because you feel that is something for the Commodore or the Captain or your Department Head to do. The greatest single strength of our Navy today, the one that gives me confidence that we are number one, is the experience, the Yankee ingenuity, and the courage of the men in squadrons like this, from boot to Commodore. We have an edge on any Navy in the world in the quality and experience of the men who man our ships. Whether you are a jack-of-the-dust, a gig coxswain, or a missile technician, your imagination in how to do things better, and your professional competence in all your duties, are our greatest strengths. They may be the critical margin of difference today. So each of you must constantly ask yourself: Am I more professional than my counterpart in anybody else's Navy? Am I as informed on my duties, especially on my battle station duties, as I can possibly be? And am I constantly looking for every way to do things better as an individual, as a member of my ship, and as a part of DESRON 20? If your answers are all yes, we will stay on top, no matter how hard the Avis boys try.

This is my challenge to all of you; to go beyond the details of day-to-day demands, and beyond the capabilities of individual ships, to keep our destroyer team the most combat ready team in any man's Navy."

Vice Admiral Turner made the following remarks to the sailors of Destroyer Squadron Twenty at the Change of Command of COMMANDER DESTROYER SQUADRON TWENTY on 17 August when Captain Richard A. Dalla Mura relieved Captain Claiborne S. Bradley.

TIM BRADLEY HAS EARNED A SINCERE "WELL DONE" FROM ALL OF US.

CAPTAIN DALLA MURA, YOU ARE TAKING COMMAND OF WHAT APPEARS TO BE ONE OF THE NAVY'S FINEST AND MOST MODERN DESTROYER SQUADRONS. I DO ENVY YOU. I WOULD LIKE, WITH BOTH OF YOUR PERMISSIONS, TO ADDRESS MY BRIEF REMARKS THIS MORNING PRIMARILY TO THE OFFICERS AND MEN OF YOUR SQUADRON. THE TRADITION OF OUR CHANGE-OF-COMMAND CEREMONY STEMS FROM A DESIRE TO MAKE SURE THAT ALL HANDS KNOW WHO IS IN CHARGE FROM THE MISSILE TECHNICIANS ON DEWEY TO THE SONARMEN ON GARCIA FROM THE MASTER AT ARMS ON DAVIS TO THE MESS COOKS ON HEWES FROM THE MEN IN TRIPPE'S CIC TO THOSE IN THE FIRE ROOM OF BOWEN AND AFTER-STEERING ON FURER YOU ALL HAVE TO KNOW WHO THE BOSS IS AND HOW YOU CAN WORK FOR HIM. THE REASON ~~IS~~ THIS IS DESRON 20 NEEDS THE VERY BEST FROM EACH OF YOU AS INDIVIDUALS IF OUR NAVY IS TO CONTINUE TO BE THE BEST IN THE WORLD. UNTIL A FEW YEARS AGO OUR NAVY HELD A CLEAR SUPERIORITY AT SEA BOTH IN NUMBERS OF SHIPS AND AIRCRAFT AND IN THEIR QUALITY.
